Cardiac Development and Regeneration (BIOL 680)

Spring 2018
Dr. Conlon
Tuesday 5:00-6:30PM
AND
Tuesday March 6, 2018 at 2:00-3:00
TBA

Dr. Frank Conlon  frank_conlon@med.unc.edu
Office location: 220 Fordham Hall
Office hours: By request

REQUIRED TEXT: None

Required reading: This advanced class is based on reading and discussion of reviews and primary literature. Your attendance and participation are the majority of your grade. You will be asked to turn in several homework assignments. You MUST always complete reading assignments prior to coming to class. You each will be called on in every class to answer questions and for discussions.

ADDITIONAL REQUIREMENTS: Basic knowledge of biology and chemistry as demonstrated by a B or above.

PARTICIPATION (60% of your final grade): The class grade is based on participation. You must attend and participate. Missing just a single of classes will affect your grade!

WHAT YOU SHOULD BRING TO CLASS EVERY DAY:
1. A printed copy of all assigned readings.
2. Extra blank paper for drawings, notes, activities etc. (or tablet computer for drawing).

TESTS: There will be one final exam. It will be a take-home exam based on the papers and discussions in class.

Your final average is calculated:
Total for the semester =
(0.60 x participation) + (0.10 x homework) + (0.20 x test) +
(0.10 x attendance at seminar on March 6th)
