What you should know:
• Biol 293 is only open to Biology majors (primary/secondary).
• To register, you must have completed Biol 201, 202, 103, or 104.
• Biol 293 does not count as a course in the major.

If you meet the requirements, use this flowchart to determine if your internship qualifies.

Will the internship take place on UNC campus?  
No  
Will the internship be at least 135 hours?  
No  
Will activities involve outreach/education?  
Yes
(E.g., leading nature walks that promote biological education; designing programs for a natural history museum)  
No  
Does the internship involve research?  
No
(PRACTICAL INTERNSHIPS (E.G., IN CLINICS) ARE A GREAT EXPERIENCE, BUT ARE NOT SUITABLE FOR COURSE CREDIT.)  
Yes  
Will the intern gain experience in scientific thinking?  
Yes
(E.g., manipulating variables/conditions or making observations to answer a question)  
No  
Does not qualify
If internship occurs in a research setting, but is limited to learning skills (e.g., aseptic techniques) or is primarily clerical, it does not qualify for Biol 293.

Eligible to apply

Does not qualify
If conducting research on campus, consider Biol 395.
